Dawn breaks over a high security prison. But all is not well.
Last night the inmates rioted – smashing cells and offices, and building booby traps to help avoid recapture.
The prison authorities have become impatient. They want to send in the riot squad – but this will result in a blood bath. The situation is tense; and getting worse by the minute.
The only way to avoid the ensuing carnage is to send in a snatch squad to find the seven ring leaders, and negotiate with them to surrender to police custody. You are that snatch squad. You have been given only one chance to diffuse the situation – and avert a massacre.

★ COMPLEX SUBGAMES

THE GAME

Spectrum/Amstrad : Select either joystick or keyboard to start the game. (The keys are redifinable for left/right/up/down/fire and pause). You must make your way up

to the roof in various sections of the prison, via some of the prison cells, where you may be able to find one of the seven ringleaders, whom you must negotiate with and lead to safety. You do this by catching up with the prisoner, and then solving a subgame. The subgame consists of a grid of nine letters which make up the word 'Porridge'. The letters will be scrambled, and you must move a pointer using up/down/left and right, to any row or column, and press fire to move the row or column in the direction of the pointer, until some of the letters are in the right order. The number of letters required will flash at the start. If you complete the subgame, you must then lead the prisoner to the left edge of that section of the roof, where he will be lowered to safety by a hydraulic lift.

Scattered around the prison will be some useful items – remember, if you run out of ammo, you can get rid of the rioters by

jumping up and kicking them in the head. Use 'down' to enter a door or climb through a window. Also, watch out for the booby traps that prisoners have set up, and be careful of the prisoners sitting on the rooftops throwing slates.

The game ends when all the seven ringleaders have come down rom the roof, at that point the other prison rioters will be forced to give up their protest.

The game can be paused by pressing the 'enter' key (except during a subgame). Restart by pressing fire.
