LQ5000di
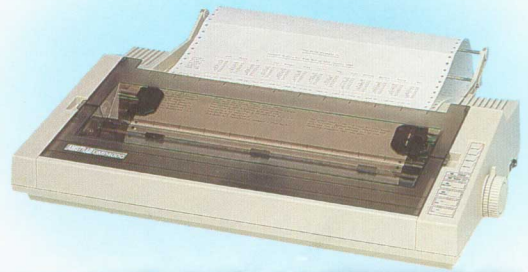

The flagship of the Amstrad range. With a 24 pin print head to give high quality and resolution for both text and graphic output and a 14″ wide carriage, the LQ5000di is ideal for all applications that you may use your Amstrad PC for.

DMP4000

The heavy-duty DMP4000 is the best choice where a high through-put is required; the wide carriage and fast printing makes the DMP4000 ideal for large spreadsheets and listings.

LQ3500di

Where space is limited but high quality is required, the compact LQ3500di with a 24 pin print head makes the ideal choice, especially for word processing applications.

DMP3250di

The personal printer for the personal computer. Its compact size and ingenious design make it the answer for home or office use where space is limited. But no compromises have been made on performance. Perfect for word processing, personal database and home finance use, it can switch between printing a letter and addressing an envelope in seconds.
