

AMSTRAD ARTIST & SPRITE DESIGNER

by Matthew Bradshaw

"Amstrad Artist" is a highly advanced graphics package for the **CPC464**. It offers many facilities for designing screens and creating your own graphics. The package also includes three demo screens produced by the author.

Commands include:

PLOT	WASH	ENLARGE
DRAW	MIRROR	ERASE
CIRCLE	SCROLL (4 directions)	BOX FILL
ELIPSE	INK CHANGE	BOX
FILL		BLOCK MOVE
STIPPLE FILL	and many others	

With **"Artist"** comes **"UDG Designer"**. This is an advanced character generator which includes the following options:

Define Characters (124-255)	Clear Grid
Alter Graphics (32-255)	Mirror Graphics
Rotate Graphics	Inverse Graphics

User Defined Graphics can be printed on a background either normally or transparently.

"Sprite Designer", on Side 2 of the cassette, enables you to design up to 12 sprites for use in your own programs, including animation, etc.

There is also a DATA-Machine Code conversion program to enable sprites to be used in your own programs.
