

CLASSIC PUNTER

OBJECT OF THE GAME

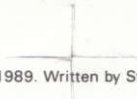

To become a "Classic Punter", by winning £1 000 000, or if playing a 2-player game, to win more than your opponent.

On each race, you are given the opportunity to select WIN BET or FORECAST, where you try to predict first and second places for higher odds. With a Win Bet, you have the choice of S.P. or Tote odds; S.P. being the odds already quoted. Tote odds could be higher or lower - with skill, you may be able to judge which! Follow on screen prompts to make your selections. Press ENTER to start the race when the horses line up, and to clear results screens.

To help you (1-player game only), there is the DUBIOUS TIPS SERVICE, offered at certain points during the game. The more you play the tipster, the more likely it is the tip will turn out to be a winner; but as you know, in racing, nothing is a dead cert!

If you want to risk betting big money, (or if you're running out!), the PUNTER LOAN is available. Be careful though - repayment is 10% weekly PLUS 10% of any winnings!

The game ends when either the selected number of races has been run, when a player goes broke, or when you win a million and become a CLASSIC PUNTER!
