

"CLIMB-IT" has 4 magnificent screens of superb graphic action in solid machine code.

You are a heroic young man who has to rescue his girlfriend who has fallen into the clutches of a giant monkey. To reach your sweetheart you must climb ladders, take rides on lifts and conveyors, avoiding barrels, fires, pies and bouncing beams.

On reaching the fourth screen you have the chance of rescuing your beautiful girlfriend.

LOADING: To load press the CTRL key and the small ENTER key on the numeric key pad.

CONTROLS:

Z = LEFT

X = RIGHT

K = UP

M = DOWN

SPACE BAR = JUMP

You can also re-define your keys using any keys except ESCAPE, DELETE and ENTER keys.

To set up your joystick, take the re-define option and press the joystick in the direction of the prompts given on the screen.
