FUTURE BIKE SIMULATOR—THE GAME

Essential Info:

The control panel displays on screen, information about your score, energy level, lives remaining, high score, money carried, radar and shield.

When a shield is bought, it is displayed as a full shield and as it runs out, so the shield disintegrates.

ENEMIES

All enemies, when shot, will drop money. The amount of money dropped depends on the strength of the enemy.

The money can be used to buy items from the shop.

Mines appear in front of you and contact with these will result in an energy loss.

Al bombs, like mines, appear in front of you. Contact with one of these will cause you to lose some of your money.

WEAPONS

There are many additional weapons that can be added to your bike. These include Missiles, Sidearms and Radar. The others you must find out for yourself.

NOTE: Sidearms are sold singly—one left, one right.

SHOP

At various points in the game, you will enter the shop.

It is here that you may buy the additional extra weapons.

PLEASE NOTE: CREDIT CARDS ARE NOT ACCEPTED.

When you enter the shop, you will see a number of icons denoting the items you may buy.

Moving left and right will highlight the different items for sale and pressing Fire will select it.

Should you buy too many of certain items you will be given a 'Ship Overload' warning. This will be shown, for example, if you try to buy three sidearms.

Pressing E will exit the shop and return you to the Strip.

ULTIMATE AIM OF THE GAME

Your challenge is simple — ride the Strip on your Future Bike through City, Desert, River rapids, Ice floes, mountains AND SURVIVE!!!

FUTURE BIKE SIMULATOR (SIMULADOR DE MOTO FUTURA)

En 1995 una legislación muy estricta de los gobiernos mundiales prohibió la moto, en el sentido que la entendemos ahora.

Finnius M Houlder, el insólito multimillonario y casi seguro el hombre más rico del mundo, furioso por la prohibición de su deporte favorito, el motociclismo, hizo estudiar en sus laboratorios una moto sustituta 'legal'; una moto que se escapara de las leyes.

El resultado, en 1999: **LA MOTO DEL FUTURO (FUTURE BIKE).**

Esta maravilla anti-gravedad, sin ruedas, totalmente aerodinámica, capaz de ir a más de 500 Km/hora, asombró a todo el mundo. Finnus Houlder compró grandes terrenos (autopistas privadas) en prácticamente todos los países industrializados.

El resultado: **LA PISTA (THE STRIP).**

Sin estorbos de grandes camiones, ni embotellamientos, ni domingo-ros; sólo velocidad a todo gas, pero, cuidado, hay riesgos.

FUTURE BIKE SIMULATOR (SIMULATEUR DE MOTO DU FUTUR)

En 1995, une loi excessive votée par les gouvernements du monde a aboli la moto telle que nous la connaissons aujourd'hui.

Finnius M Houlder, multimilliardaire extraordinaire et probablement l'homme le plus riche du monde, outré par cet interdit qui frappe son sport préféré, la moto, a demandé à ses laboratoires de recherches de mettre au point un remplacement "admis". Un véhicule qui contournerait la loi...

En 1999, le résultat — **FUTURE BIKE**.

Capable d'atteindre des vitesses dépassant les 500 km/h, cette merveille entièrement aérodynamique, anti-gravité, sans roues, remporta un succès fulgurant dans le monde entier. Finnus Houlder rafla tous les grands terrains (autoroutes privatisées) dans pratiquement tous les pays industrialisés.

Le résultat — **LA PISTE**.

Plus de mastodontes, plus d'embouteillages, plus de véhicules lents sur la voie rapide, juste la vitesse pour la vitesse, mais soyez prudents, il y a des risques!
