THE GAME

COMBAT READY? The enemy have built 3 cities. The simulator takes you through a series of screens. Destroy the outer radar defences, smash the psuedo conscious Metalliks and keep your shields up. You can continue in the game if all your shields drop or you can start again. Fly the Plains of Glass and reach the Cities. Your score will decide your crew status level. There are 14 levels of excellence to pass through. Your current status is displayed at the end of each mission.
