Grand Prix Driver

Is a 3D Arcade style game of skill written in high speed Machine Code for superb graphics and action packed reality. The program contains all the thrills and spills of the Formula One Rack Track, putting you in the driver's seat of a powerful racing car, where you can win the laurels and a magnum of champagne, if you can reach the chequered flag in time!

The object of the game is to be first home, driving a Formula One racing car. There are 30 cars to pass, in order to be first and they won't let you pass without a fight. Just to make life more difficult, the fastest driver can cross the line in 10 minutes. (600 secs).

Beware!! Don't go too close to the edge of the track or you may spin off and crash. You only have one life!!
