THE GAME

As Seafarer Gazette's ace reporter, Ed Lines, you are trapped on the sea-bed in a nuclear submarine. Your only hope of rescue is to send a distress signal to GHQ. How you actually go about doing this is up to you . . .

LOADING

1. Place the tape in the cassette unit and rewind to the beginning.
2. Hold down CTRL and press the small ENTER key.
3. Press PLAY on the cassette unit.

NOTE: Full loading instructions can be found in your Amstrad CPC 464 manual.

PLAYING THE GAME

To move around the ship, and perform any actions, you must enter instructions in to the computer in the form of Verb/Noun sentences (you will be informed of any consequences of those actions). For example, if you were at a location with an exit to the North, entering GO NORTH (some instructions can be abbreviated to one letter, i.e. N for North) would take you to the new location.

During this adventure you will discover various objects which may, or may not, help you. There are also a number of useful hints and clues for you to discover and make use of.

Some of the verbs you can use:

NORTH (N)	PICK
SOUTH (S)	ATTACH
EAST (E)	DISMANTLE
WEST (W)	JOIN
UP (U)	OPEN
DOWN (D)	CLOSE
INVENTORY (I)	LOCK
GET	UNLOCK
TAKE	FIRE
LOAD	TURN
LOAD GAME	DROP
QUIT	SPILL
PUT	PULL
PRESS	SAVE

If the computer does not understand an instruction, try to phrase your sentence differently, or use alternative words.

A game may be SAVED on to tape at any stage, by entering SAVE. A previously SAVED GAME can be reloaded at any time, by entering LOAD GAME (just entering LOAD is not sufficient).
