

SUPER PIPELINE II

THE GAME

All you have to do is keep the pipeline in good condition until the barrels are full.

The water tank holds enough water to fill all the barrels and then some spare. Simple eh!

If the pipeline develops a leak, the water will spill out and be lost.

You play Foreman Fred. His job is to defend the pipeline and get any leaks fixed, fast. Leaks can only be fixed by a workman and a workman needs taking to the leak before he'll start.

The pipeline runs through many hostile lands populated by evil insects and terrible tools. You have the only gun, so the workmen look to you for protection.

GETTING STARTED

As soon as you've loaded the game it will cycle through the demonstration mode, showing the title page, a scene from the game and a list of the top ten high scores. The system assumes you want a 1 player game with three lives.

Press FIRE at any time to start the game.

The game screen sets up showing the water tank top left and the barrel scrolls in as this pipe network is drawn for you. All the pipes are empty and play begins as the water begins to flow. You, as Foreman Fred are at the top of the pipeline. Watch out for your workmen wandering into the action and collect them as soon as possible. You'll have to defend this pipe against the attacks from manic power drills as they cause leaks and protect your workmen from gnawing caterpillars and ferocious hammers. Fix any leaks as quickly as possible by taking (at least) one workman to the leak. Protect him until he's finished hammering and the flow will be restored. If you fill the barrel you've won this phase.

HINTS AND TIPS

There are dozens of types of baddies. Some make leaks, some are difficult to kill. Look out for opponents like the shower of tacks which, of course, you can't kill at all. Special guest appearances by the six-legged Venusian Pipe Spider shouldn't cause too much trouble and the Hard-case Lobster (shoot only from behind) has a cameo role.

If you've suffered too many leaks and still haven't filled the barrels, the water level in the top tank can get critically low. The whole pipeline will begin to flash indicating low water. Get on and fix the leaks quickly – you can still do it but your score is being reduced now. Remember that any baddie will kill you on contact. If the action is getting fierce or you are trapped in a dead-end by the Shower of Tacks – use a workman as a shield. He may get knocked off – but he'll be back.

REGISTRATION

The registration card should be completed and posted (Free Post) to Taskset Limited as soon as possible to register your ownership of the game.
