GAME INFO

So there you were, pulling up outside your local Foourd dealer in your clapped out Laader 1000L complete with free flowing air intakes, (rust!) for a test drive.

However, after taking a wrong turn, you find yourself in the middle of the local alien communities.

And they are not too happy about you being there!!!

You must fight off the alien attacks against you using only your skill and agility (and the bolt on weaponry sent to you courtesy of Foourd).

To collect the weapon that is indicated on the panel, simply run into the pod that comes towards you.

A pod is only awarded when all the attacking aliens have been destroyed.

Weapons include:

SPINNER

This constantly tops your energy up.

SIDE ARM

This fires sideways. This will only kill aliens that are directly to the left or right of your ship.

HYPERSPACE

Makes you invincible for a period of time, destroying all aliens and meteors.

EXTRA MISSILE

Self explanatory.

EXTRA LIFE

Self explanatory.

Eventually you will reach the end of the alien ghetto and come face to face with the great big mother of a ship that is used by their leader. This will take many hits to destroy it although you cannot use missiles against it.

You may think that all this is too much for your puny senses to bear so Foourd, in their ultimate wisdom, have included on the T-Bird an anti-collision shield. However, this only has a limited energy cell and each collision drains it.

Pressing Space will fire a missile.

This will destroy all aliens or meteors on screen.
