CPC 464 • 664 • 6128

The peace summit was successful. An arms treaty has been signed. All medium range missiles have been destroyed . . . except for two which have been captured by a group of Terrorists who plan to destroy the Western World unless their fellow terrorists are released from a penitentiary in the United States. Your task, as a mercenary employed by the United States Government, is to capture the terrorist bases in their desert outposts - Battle Valley - and eliminate the two missiles.
