BATTLEFIELD GERMANY

THE GAME

17. June 1989.

After almost a year of increasing tension, a full scale Warsaw Pact offensive is launched into Western Europe. BATTLEFIELD GERMANY has begun !

BATTLEFIELD GERMANY is a simulation game about a conflict that has yet to happen – war in central Europe between NATO and the WARSAW PACT. Under the shadow of nuclear escalation, the war encompasses both Germanys, Czechoslovakia, Belgium, the Netherlands and Eastern France.

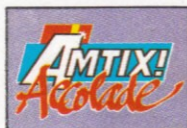

An exciting, sophisticated wargame using the latest in artificial intelligence techniques, BATTLEFIELD GERMANY offers a true strategic and tactical opportunity for anyone interested in exploring the strategies of modern warfare.

Factually as accurate as possible. BATTLEFIELD GERMANY also serves as a chilling reminder of the scenario that must never be allowed to develop.

FEATURES

Nuclear option
Phased game
Variable difficulty level
Variable game length
Save/Load Game

Computer opponent
Command either NATO
or Warsaw Pact
1 or 2 Players
Full instruction booklet

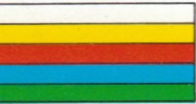

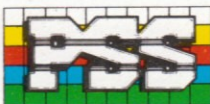

"A GREAT CHALLENGE" – COMPUTER GAMER AUGUST 1986
