COLONY

BULLDOG

SOFTWARE

It's cold, wet and miserable. The humans are complaining again and this lousy planet's occupants are still trying to chew through the fences. In short life is less than wonderful as the one and only Patrol Droid. Still the relief ship is due soon with the new mega deathtraps. Then you can *really* have some fun ...

Keep the Colony thriving against odds, aliens and lousy schedules, in this all action arcade strategy game.

Joystick or Keyboard.

Program from Icon Design.
