COLOSSUS MAH JONG

5 012323 080114

CDS Software LTD

CDS HOUSE, BECKETT ROAD, DONCASTER, DN2 4AD (0302) 21134
TELEX 547 676 CDS. FAX (0302) 340480.

COLOSSUS MAH JONG is the computer version of the ancient oriental game, enabling one player to enjoy a challenging game against the computer. Taking the part of the East Wind, you do battle against the North, South and West Winds, picking up and discarding tiles from the central playing area. Your hand is represented by 3D graphics.

COLOSSUS is packed full of user friendly features to aid the novice player. These include demonstration mode, playing hints, and the facility to peep at your opponents hand. There are also four tutorials to help you recognise the tiles and understand the scoring system.

COLOSSUS also offers a great deal for the more experienced player with nine levels of intelligence, variable speed of play and optional tournament mode.

COLOSSUS MAH JONG follows in the footsteps of **COLOSSUS CHESS** and **COLOSSUS BRIDGE** and with its wide range of features and comprehensive instruction manual, it is clearly the ideal program for beginner and expert alike, and is a worthy member of the **COLOSSUS** series.
