CONVOY RAIDER

The free world is in peril – war has been declared and the enemy is closing in. Your weakest point is the coastline so a strategic defence initiative has been adopted.

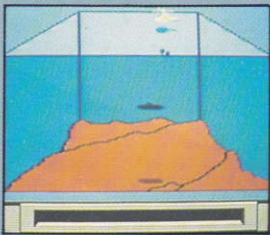

Your mission – is to patrol and defend the inner sea using all the modern weapon systems with which you have been supplied.

Seawolf – a deadly accurate missile for use against both aeroplane and anti-ship missiles.

Exocet – a video linked rocket for attack upon surface ships.

Anti Submarine Helicopter – attack the enemy submarines using your depth charges.

The future of the country lies in your hands; frighteningly powerful weapons are at your disposal and important decisions must be made.
