

A close-up, low-angle shot of a red Ferrari Formula 1 car. The driver is visible in the cockpit, wearing a white helmet with red and blue accents and a red racing suit. The car's front wing and sidepods are prominent, featuring yellow and black checkered patterns. The background is a blurred grey track surface.

THE CYCLES *International Grand Prix Racing™* ACCOLADE

Supports: Amstrad
CPC 664,
CPC 6128
Requires: 64K Memory
Recommended: Joystick

RACE ON THE EDGE

The only motorcycle game with a first-person perspective. True racing realism. Look over the handlebars and see the road disappear under your wheels. Sense the undeniable rush of full-throttle speed.

Choose from 5 different skill levels: Will the racer in front of you blast into the lead or dump his bike trying? Each skill level alters the racing ability of the competition. (Nothing quite like wiping out at 90 mph. How do you say "ouch" in Italian?)

Race in 3 different performance classes. Ride a bullet or a bumble bee. Choose either 500cc, 250cc or 125cc class races. Take a look at this baby's specs. It's one road rocket with a licence to thrill.

Don't say we didn't warn you. ▶

The Cycles: International Grand Prix Racing™ wraps you around the chassis of the fastest bikes ever built as you compete in the International Grand Prix of motorcycle racing. ▶ Laguna Seca. Le Mans. Salzburg. Crisscross the globe to do battle with the world's greatest racers in the sport's premiere events. ▶ Who's got the guts? Who wants the glory? Who'll hoist the trophy of world champion?

Race on 15 authentic Grand Prix Courses. Tracks like Suzuka in Japan put a premium on handling and acceleration. From Australia to Brazil, you'll file down the foot pegs on the most grueling layouts in motorsports.

Compete against 9 of the circuit's best Grand Prix riders. Don't look behind you now, but there's a pack of hungry road warriors right on your tail. These guys chew asphalt for breakfast and burp exhaust. Better eat your corn flakes!
