DEATH OR GLORY

Across the immeasurable void of space, an incredible fleet approaches the peaceful island planet of New Stratford. Just a speck on the civil radar system, a simple spacedozer ship was sent to survey the conundrum. With horror, the pilot of the asteroid demolition craft saw the radar speck become a huge invasion fleet. Then like a storm of meteors they were on him. Android fighters peppering his collision armour with a shower of missiles. Automatically he ploughed into them, crushing their super-structures like insect's thin shells. He cried out in fury and plummeted into a mothership, which ruptured into a blaze of dazzling plasma. "Death or Glory" he screamed triumphantly as his craft tore into the fleet.
