The Doors of Doom is more than just the best game you have ever bought for your Amstrad. Not only do you get the game itself, but on this cassette is a program that allows you to design your own scenery for the planet of Doom!!

Doors of Doom was written by John Line of Gem Software, during one of his most protracted stays in a National Health Mental Institution. As such, neither AMSOFT nor GEM SOFTWARE, can take any responsibility, for any game player, getting anything whatever, caught in the Doors when they get the last Piece!!

Les portes du Destin sont bien plus qu'un simple jeu, nous y avons ajouté un programme vous permettant de changer le paysage de la planète du Destin.

Le jeu "portes du Destin" a été écrit par John Line de Gem Software, durant son hospitalisation dans le service psychiatrique. De ce fait, ni AMSOFT, ni GEM SOFTWARE ne seront responsables des joueurs se coinçant dans les portes à la fin du jeu!!!
