

Dungeon Adventure

Level 9 Computing

Magical Treasures abound in the cavern fortress of the defeated Demon Lord. Can you use them? A sense of humour is essential in this massive, pure-text adventure with over 200 locations, 100 puzzles and lots of very weird creatures.

Level 9 Computing specialise in adventures. Big adventures. We have developed sophisticated techniques for cramming huge games into 32K and now produce versions for many popular computers.

Our games are designed much like novels, with detailed backgrounds and interesting storylines: the result is more enjoyment for you. And don't worry if you get stuck. Just write to us for a clue sheet that will tell you almost everything you could ever want to know about a game.

Jubilation reigns in Minas Tirith! At sunset yesterday the city was besieged by a sea of orcs and it seemed that the defenders were doomed. But at sunrise, the watch looked out over an empty plain — the attackers had fled when on the point of victory. The first reaction was stunned amazement, but gradually a rumour began to spread: "The Demon Lord is dead!"

A two week carnival was announced and the population proceeded to enjoy themselves as you would expect. But you were wiser. Clearly, with the Demon Lord out of the way, there would be rich pickings amongst the ruins of His fortress ..

Now, eight days later, you stand on a sandbank beside a great river. North of you are the dungeons of the Demon Lord. You are cold and wet, but determined to brave the hidden dangers of the caves. But then a shiver runs down your spine: a brooding presence is watching .. perhaps the demon is still alive, and waiting for you.
