WINTER'S TAIL

(A Midsupper Night's Dream)

The world's favourite feline is back...
as the Ski Animal!

GARFIELD has fallen asleep in front of the
ice box and starts to dream.

He dreams of the Alps, and that reminds him of
Northern Italy — which reminds him of **LASAGNA!** (hum, sounds like
lunch...). As the dream unfolds **GARFIELD**
just round the other side of the Alps is
Chocolate! (hum... sounds like dessert).
he discovers the legendary 'Chicken that
Eggs'... and from there the chase to catch

remembers that
Switzerland — reminds him of
But once in the chocolate factory
Lays the Chocolate
the chicken is on!

This superb sequel to
Deal! is really four games in one. With **GARFIELD** skiing,
skating, and facing the trials of dealing with Odie (the World's
dumbest dog) in this unique blend of both pure arcade-style
and adventure/puzzle solving game.

Yet another must for computer game playing
GARFIELD fans everywhere!
