

Maxam II

Macro Assembler, Editor & Monitor

AFNR

Maxam II

MAXAM II provides you with a complete programming environment. It comprises a Macro Assembler, Monitor, & Editor each of which is very fast and easy to use. A totally integrated professional package.

MAXAM II's MACRO ASSEMBLER

- Nested Macro definitions ● Conditional assembly
- Expression evaluator ● Nested read files ● 8086 mode
- Symbol table dump.

MAXAM II's MONITOR

- Fixed & Conditional break points ● Intelligent single stepping ● Disassembly - forwards & backwards
- Bank switching ● Error trapping ● Symbolic debugging.

MAXAM II's EDITOR

- Full screen editing ● Unlimited file length
- 2 file editing ● Powerful block manipulation
- Find and replace.

Comprehensive manual with intro to CPM+, tutorial & handy reference section.

Package includes example progs, many help files & disc utilities such as: disc copier, formatter, printer drivers.

Files produced under MAXAM II link with Arnor's "C" compiler.

Programmes written on PCW9512, PCW8512, PCW8256 or CPC6128 can be freely transferred to any of the others.

5 013964 108410

Arnor, 611 Lincoln Road, Peterborough, PE1 3HA

Maxam II

*Macro Assembler,
Editor & Monitor*

for the Amstrad PCW 8256/8512, 9512 and CPC6128
