Six modules in one powerful package

... at a price that can't be matched!

Mini Office II is the highly-acclaimed, award-winning suite of integrated programs which will turn your computer into a versatile business machine.

With it you can:

Compose a letter with the **WORD PROCESSOR**. Set the printout options using simple commands or menus and use the mail merge facility to produce personalised circulars.

Build a versatile card index with the **DATABASE**. Use the flexible printout routine, do powerful multi-field sorting, perform all arithmetic functions and link directly with the word processor.

Design the layout of a label with the easy-to-use **LABEL PRINTER**. Select label size and sheet format, read in database files and print out in any quantity.

Prepare budgets and tables with the **SPREADSHEET** module. Total columns and rows with ease, copy formulae absolutely or relatively, and recalculate automatically.

With the **GRAPHICS** module you can produce pie charts, overlay line graphs and display bar charts side by side or stacked. Enter data directly or load data from the spreadsheet.

Using a modem with the **COMMUNICATIONS** module you can access services such as MicroLink and order a wide range of goods from flowers to software, and send electronic mail, telex and telemessages in a flash.

What reviewers have said:

"Tremendous value for money and its current success is truly well deserved."

— Zzap 64

"Good enough to fulfil the entire software needs of many a small business!"

— Amstrad Action

Voted Business Program of the Year two years running in *Popular Computing Weekly*

It's no wonder that there are more than 500,000 satisfied users across the complete Mini Office range. . . It's the perfect package to increase your personal productivity.
