SPECTRUM

AMSTRAD

Your 'pulsator' has no choice. He has been placed in the heart of a series of frighteningly dangerous complex mazes. To escape, he must release the five missing 'Pulsies' each one a captive on a different maze layer.

But he is not alone. A variety of deadly and intelligent enemy pulsators patrol the mazes, each with its own devious way of making life difficult.

Blasting them to pieces will not always be the right thing to do – and anyway, it's easier said than done.

A fast moving and addictive game, requiring quick reactions and quick thinking. Only for those in search of a real challenge!

LOOK OUT FOR OTHER GREAT GAMES FROM MARTECH:— 'NEMESIS THE WARLOCK' AND 'COSMIC SHOCK ABSORBER'
