

Rig Attack

A vibrant, comic-style illustration depicting a dramatic scene. In the foreground, a yellow submarine with a conning tower and a periscope is shown firing a large, silver missile. The missile is angled upwards towards an oil rig in the background. The rig is a complex of metal structures with yellow and blue sections, and it appears to be under attack or in distress, with some parts on fire. A red helicopter with a white rotor is flying in the upper right corner of the frame. The sky is a deep purple, and the sea is a turbulent blue with white-capped waves. Large, stylized flames in shades of orange and red are visible at the bottom of the image, suggesting a major explosion or fire. The title 'Rig Attack' is written in large, bold, light blue letters with a black outline and a striped pattern, dominating the upper left portion of the image.
