TUJAD

GEN 19 is the most sophisticated combat droid ever built. It is now to be used for a task that it was never designed for: to fight its own kind. Tujad, the master computer, will use all its powers and abilities to defeat you. It has developed a fault and in its madness is unable to recognise GEN 19. You must overcome the auto defensive mechanisms and rebuild the faulty Sub Processor Element, the future of Space itself rests on your ability to control GEN 19 and repair Tujad.

- Over 100 rooms
- 50 Circuit components to Collect
- 23MW Blast Laser

- Deuteron grenades
- Extra lives and weapons
- 12 different types of enemy
