"The Final Conflict"

Warlock is a super, fast-action, arcade-style game in 3D. Set in a fabulous castle in a fantasy world, you play the part of the evil Doomlord, imprisoned by the forces of good. But, undaunted by the situation you find yourself in, you decide to go into battle against every do-gooder in the place. After all, it is they who have invaded your castle, 'Doomrock', and you have taken the precaution of setting changeling potions around here and there to enable you to change into a Goblin or a Troll when the Enemy least expects it!

Screen pictures from Amstrad CPC version.

Find the Crystal of Power, do battle with damsels, dragons, knights and others in the Army of Light and find the White Wizard for a final confrontation!

Some of the most impressive graphics yet seen on a home computer, this 3D all-action arcade-style multi-role fantasy game is a must for every game addict.
