HAVE YOU SEEN MIKRO-GEN'S OTHER PROGRAMMES?

Automania

You as Wally Week have ten cars to build, each consisting of ten parts. Of course many things are trying to stop you - bouncing tyres, unsafe gangplanks and tidy robots to mention only a few!

HCW	Playability 100%	Crash	Graphics - Superb, with excellent animation
	Graphics 100%		General - Very good to excellent
	Value for money 100%		Rating - Playable and addictive.

Pyjamarama

The lovable idiot Wally Week has now fallen asleep, is having a nightmare and wants to wake up for work. Pyjamarama is the first arcade adventure that is a real adventure and coupled with the game's superb graphics and easy playability mean that most people will fall in love with it straightaway ... the first of a new genre of games. PCG - graphics excellent. General rating - highly addictive playable, good value, excellent - Crash.

Witch's Cauldron

A superb graphic adventure in which you have been turned into a frog and have to regain your human form! Over 100 locations, 300 word vocabulary and one of the wackiest plots ever.

ATC

Definitely not a game, but a very accurate simulation of an air traffic controllers job. You get a keyboard overlay and very comprehensive instruction manual to accompany one of the most testing programmes ever.
