

ARE YOU THE BRIGHT SPARK WE ARE LOOKING FOR?

Electric Dreams Software is a publisher of original programs for Amstrad, Atan, Commodore and Sinclair home computers. We are interested in hearing from authors conversant in machine code on the Z80 series, 68000 series and 6502 processors who are involved in recreational software development. If you are seeking full international exposure and promotional support for your programs and wish to enjoy the rewards your efforts merit, please contact Dave Cummins for an informal discussion.

SOFTWARE HOUSES

Allow Electric Dreams Software to market and distribute your titles, leaving you to concentrate on product design and development. To take advantage of this opportunity and gain financial security, please do not hesitate to telephone Dave Cummins. All enquiries will be treated in strictest confidence.
