

MYTHOS GAMES PRESENTS

LORDS OF CHAOS

IN ASSOCIATION WITH TARGET GAMES AND BLADE SOFTWARE
FROM THE TEAM THAT BROUGHT YOU LASER SQUAD

Lords of Chaos is a fantasy strategy game for one to four players set in the realm of magic and mythical creatures.

GAME FEATURES INCLUDE:

Full scrolling map with detailed animated graphics * Bar graph indicators and flashing icons * joystick or keyboard controlled menu system * 45 spells, including 25 animated creatures, Gooey Blob and Magic Fire * spells have 1 to 8 levels of power * Dragons with flaming breath * Powerful potions with special ingredients * over 50 varieties of objects including various types of weapons * ranged combat, close combat, mounted combat and aerial combat * pick up, throw or drop objects * locked doors and treasure chests * wandering monsters * sophisticated hidden movement system * High powered artificial intelligence for one player option * fully integrated filing system for loading scenarios, saving games, loading wizards and saving wizards.

THREE scenarios are included with Lords of Chaos - 'The Many Coloured Land', 'Slayers Dungeon' and 'Ragaril's Domain'.

Best of all - we have included a wizard designer program enabling you to design your own wizards and choose their spells. This is an essential part of the role playing system. When you complete a scenario you can use the experience points gained to improve your wizards power and increase his level.

SPECTRUM OWNERS - Get the latest issue of 'Your Sinclair' with a playable demo of Lords of Chaos!

Lords of Chaos will be available on the Spectrum, Amstrad CPC and Commodore 64 at the end of April 1990 - use the order form below to get your copy. Expansion kit one will be available at the same time containing two new scenarios. Send a cheque or postal order payable to Mythos Games Ltd., 19 The Rows, The High, Harlow, Essex, CM20 1BZ. 16 bit versions will be available at the end of June.
